

Unit 3

Choose your topic (series conversation)

Preparation: none

Procedure:

1. Write these topics on the board:
A wonderful childhood memory.
Something you are really interested in.
Something you are looking forward to.
2. Think Time. Each student chooses one topic to talk about. Give them 1-3 minutes to think:
 - What do I want to say?
 - How will I say it?
3. Students work in pairs. They talk about their topic as long as possible. Their partner asks questions. After they have both had a turn, they change partners and continue. Keep going until each person has had 3-4 partners.
