

Unit 10

Blindfold instructions

Preparation: Make one copy of the following list per 6 students (or write similar tasks) and cut the tasks into separate slips. Prepare any necessary items (books, rods, etc.)

Put five books in alphabetical (A—B—C) order.

Draw a map of this country on the blackboard. 

Pick up a book and carry it to the other side of the room.

Open all the windows in this room. Then close them.

Write the teacher's name backwards on the blackboard.

Line up pencils so they spell the name of this city.

Photocopiable - <i>Firsthand SUCCESS</i>

Procedure:

1. Students work in pairs. Blindfold one member of each pair. Give the other member one of the tasks. That student must guide the partner in doing the task. The blindfolded partner should not be told what the task is, just how to do it.
2. After they have done it once, they can think of their own tasks and have their partners do them
